## Heat Advisory 12 PM-8PM

Highs Today

Includes Sterling City, San Angelo, Brady, Ozona, Menard, and Junction.

Temperatures: 103 to 107

Impacts: High risk for heat related illness (heat stroke and heat exhaustion) with prolonged exposure to heat.

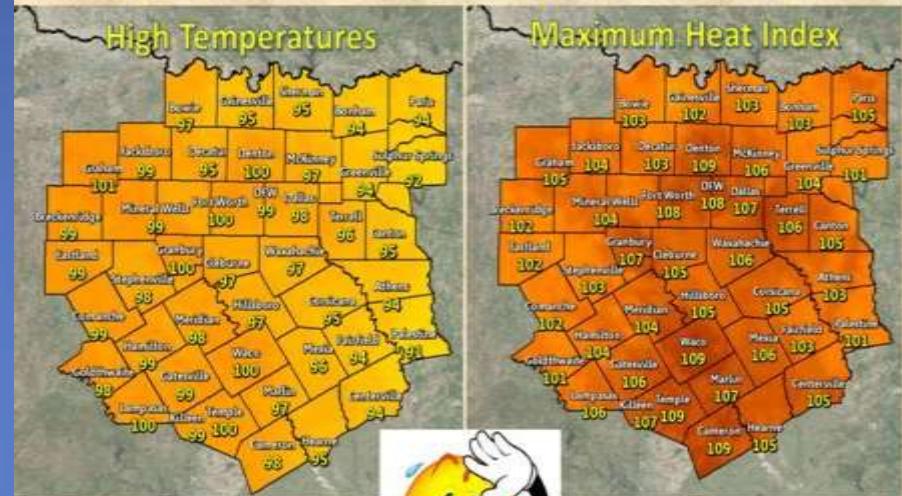

National Weather Service  
San Angelo, TX  
Updated: Jun 23 4:35AM

A Heat Advisory is in effect for Today across the Concho Valley, Northern Edwards Plateau, and portions of the Heartland

Hot Today

National Weather Service Fort Worth

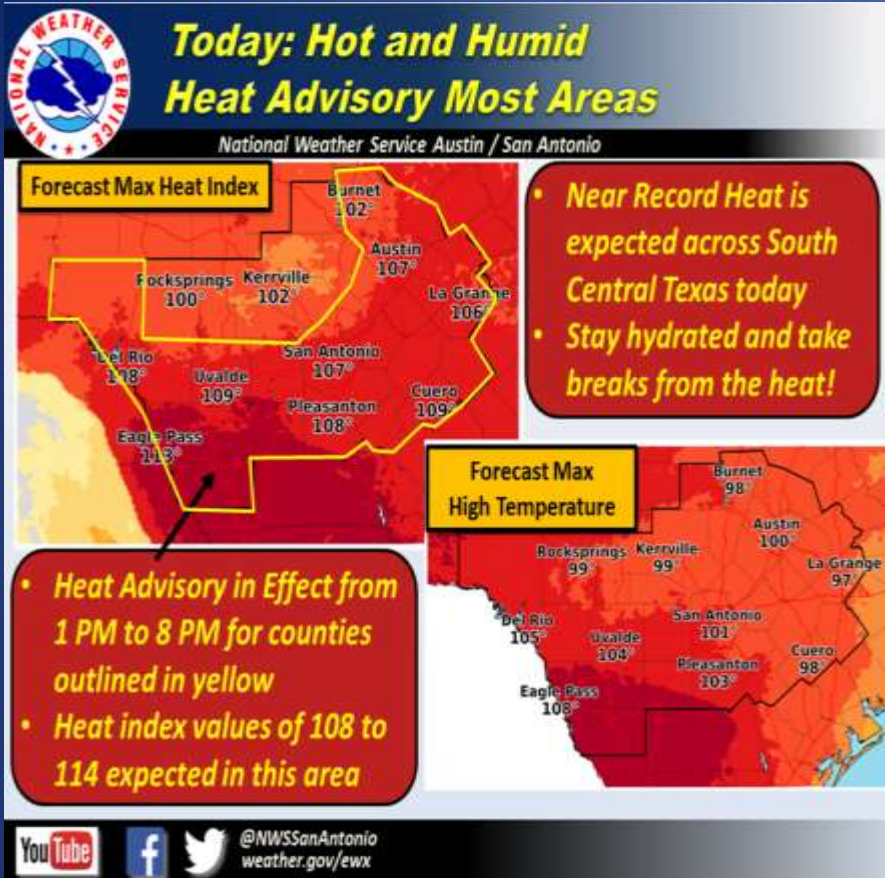

@NWSFortWorth  
weather.gov/FortWorth

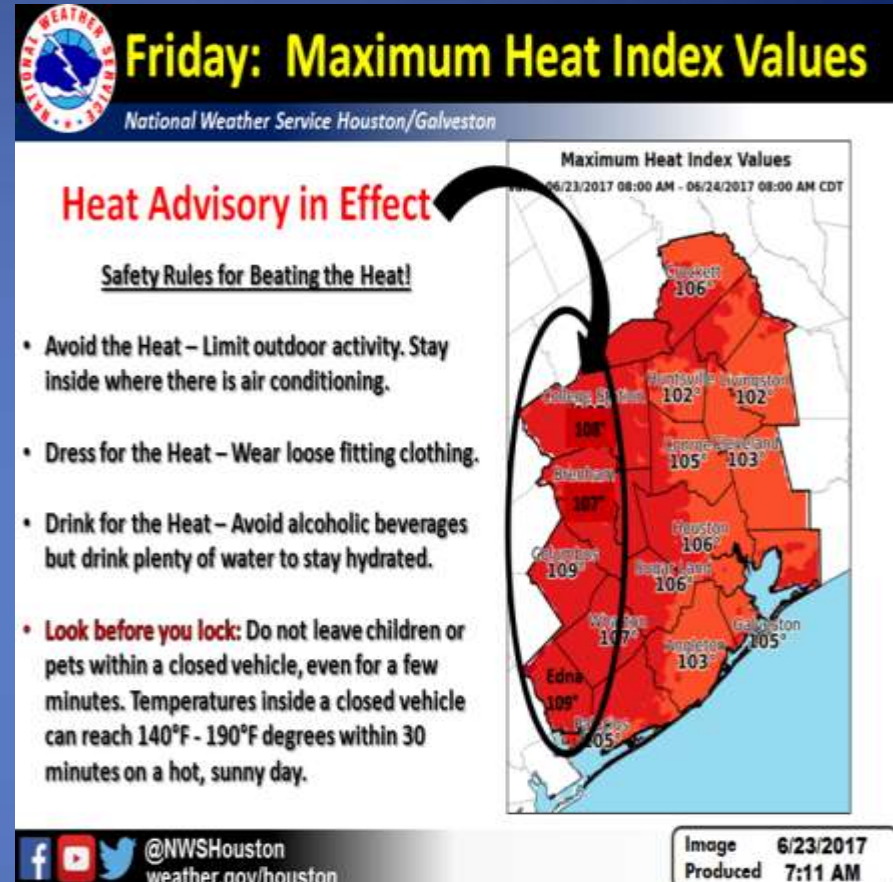

519 AM CDT  
Fri Jun 23 2017  
National Weather Service  
Fort Worth, TX

It will be mostly sunny and hot today. A few thunderstorms will be possible late this afternoon along and north of a Graham to Sulphur Springs line. Highs will be in the 90s to 102 degrees. The combination of the heat and humidity will make it feel like 100 to 110 degrees!

# Hazardous Weather

Hot temperatures and humid conditions will produce elevated Heat Index values today. High temperatures for many areas will be near records for June 23rd, ranging from the mid 90s along the Highway 77 corridor to near 110 along the Rio Grande. Heat index values of 106 to 114 are expected across most of South Central Texas where a Heat Advisory is in effect from 1 PM to 8 PM. A slightly less humid airmass over Hill Country will keep Heat Index Values in the 100 to 105 range. Otherwise, mostly sunny skies will prevail today.

High temperatures will warm into the lower and middle 90's. High humidity levels will make it feel like the temperature is between 103 and 109 degrees

# Hazardous Weather

**FRIDAY**

**Very hot; HEAT ADVISORY Continues**

Weather Forecast Office

El Paso, TX

Issued June 22, 2017 8:24 PM

- **Mostly Sunny and HOT**
- **Slight chance of mountain thunderstorms**

f t NWS El Paso

weather.gov/epz

High pressure aloft will continue over southern New Mexico, allowing plenty of sunshine and very hot temperatures. Highs will again be near record levels. El Paso will probably not break the daily record, but several other sites likely will see new records set. The record for Friday at El Paso International Airport is 110 degrees, set in 1978. The Heat Advisory continues in effect for most of the lowland area including El Paso and Las Cruces.

**Heat Advisory Today**

Through 8 PM CDT / 7 PM MDT

Weather Forecast Office

Midland/Odessa, TX

Issued June 23, 2017 5:25 AM CT

**Heat Advisory for...**  
The southern Permian Basin, Guadalupe Mountains, Trans Pecos and Big Bend region.

**Temperatures...**  
+ 100-115 degrees

**Heat Safety Tips...**  
+ Reduce outdoor activity.  
+ Drink plenty of water.  
+ Take frequent breaks and wear light clothing.  
+ Reschedule outdoor strenuous activities to early morning or evening.

**Don't leave kids/pets unattended in vehicles. Look before you look!**

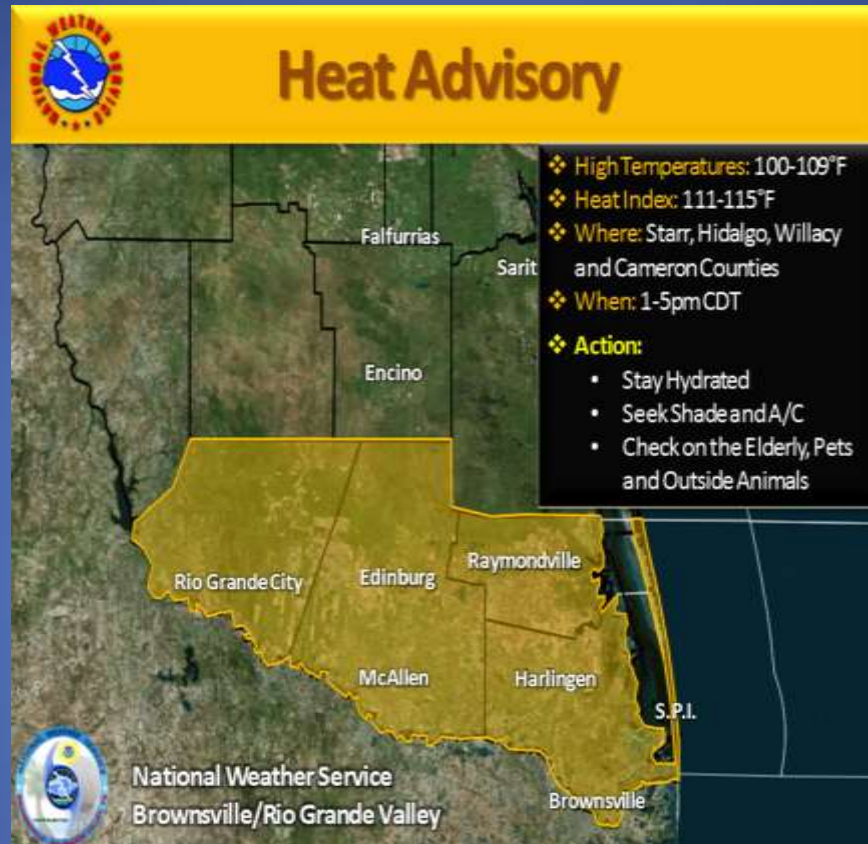

f t NWS Midland

weather.gov/maf

Hot temperatures will continue across the region today. A heat advisory is in effect until 8PM CDT.

# Hazardous Weather

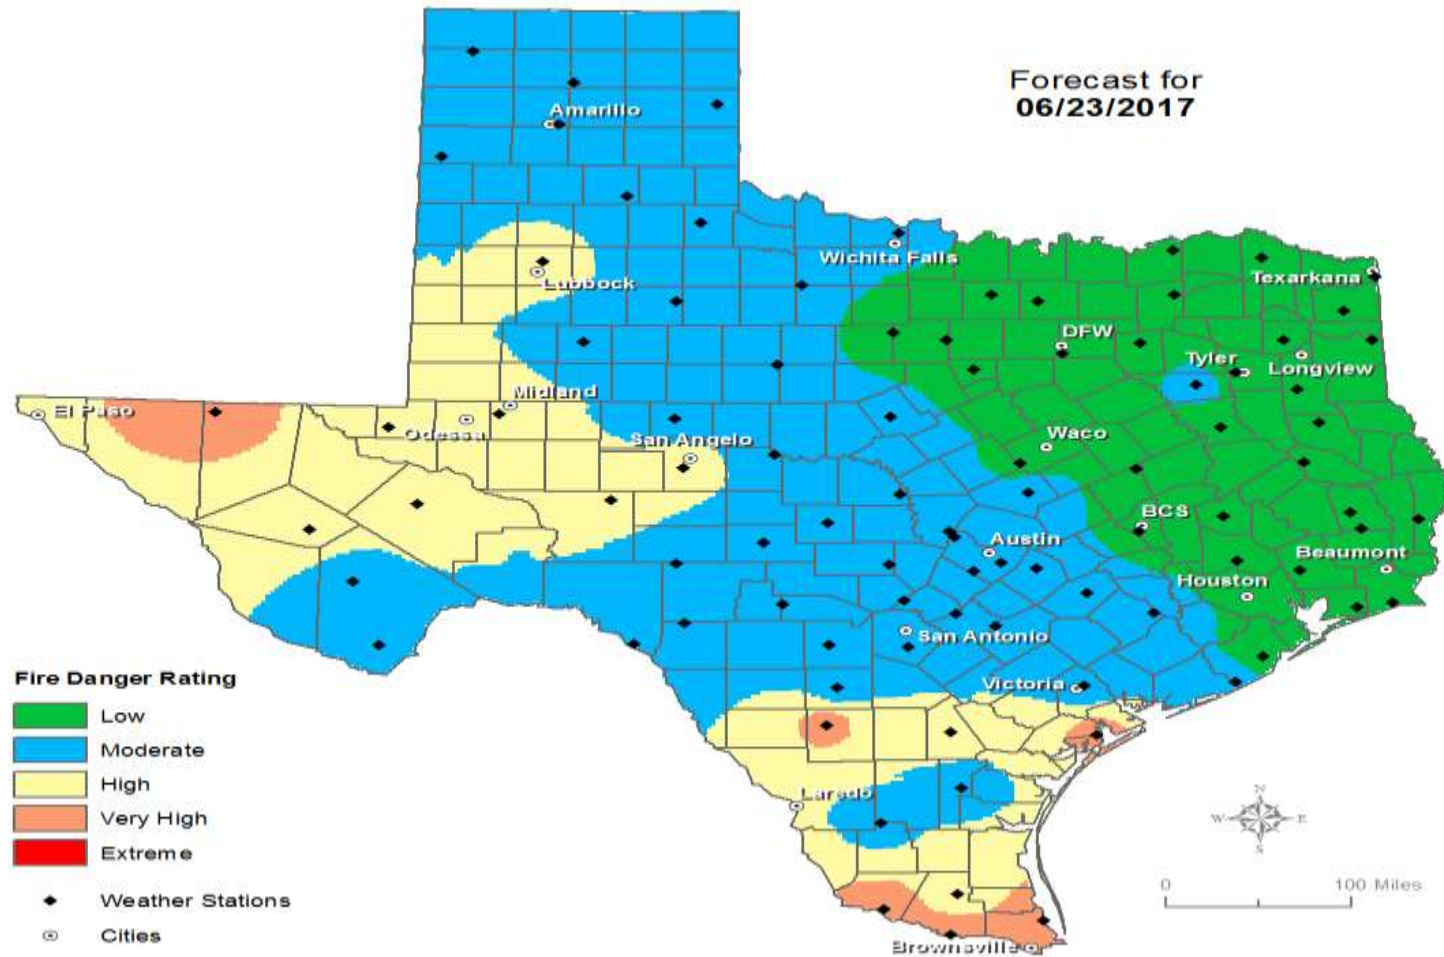

A Heat Advisory is in effect from 1pm to 5pm this afternoon for Starr, Hidalgo, Willacy and Cameron counties. High temperatures will range from 100-109 degrees with Heat Index values of 111-115 degrees. It is recommended to limit outdoor activity today or seek out shade and air conditioning whenever possible, stay hydrated, and check on the elderly, pets and outdoor animals
